KTM X-BOW GT4

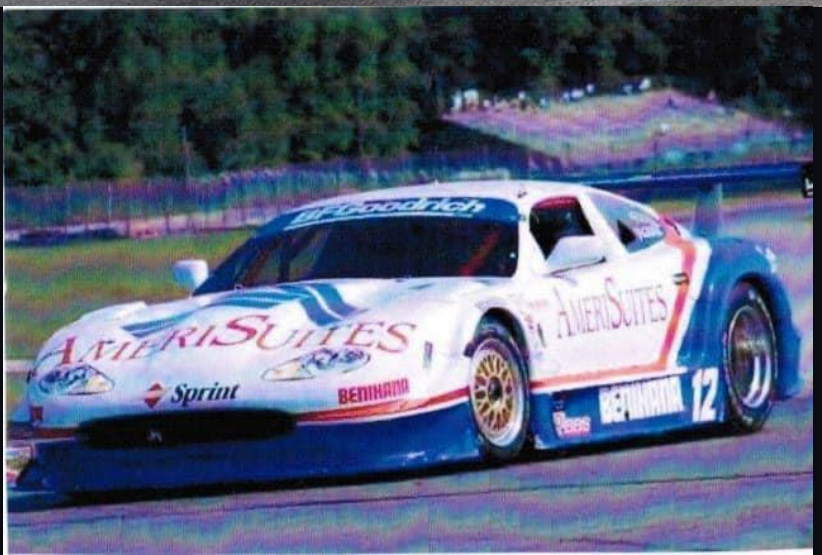

Zenith Racing Series

Organization Background

Our Goal

Our focus is to win races and the 2027 Zenith Racing Series ZR1 Championship.

Our years of race-winning experience is positioned to provide our drivers with the best equipment and strategy to accomplish just that.

The KTM X-bow GT4 is the ideal racecar to make that happen.

Full Season 2027 ZRS ZR1 with KTM X-Bow GT4

Quote from driver Robbie Pecorari

"I would like to thank Jon and ASR racing for all of my success that I had with them in the past years. They put on a great program with a great engineering department led by Mark Weida that allowed me to win races in the prestigious Indy lights Series. Throughout the years, John has not only been the Team Boss but also became a good friend and driver manager as well."

- Former Indy Lights driver and 3rd driver for 12-hour races
